The OSFM will not perform reviews of projects that have already been authorized to be installed by the AHJ. If the OSFM is requested to perform this review service per §40-10-260(C)(2), and discovers that the fire sprinkler system has been authorized to be installed prior to the OSFM approval letter required per 40-10-260(C)(4), it will automatically be considered a revocation of the request for review.
