

2020 Revenue Manual

Dorchester County Revenue Manual
 Business Services – Budget & Revenue Division
 March 2020

The National Advisory Council on State and Local Budgeting (NACSB) Practice 9.3 states “A government should prepare and maintain a revenue manual that documents revenue sources and factors relevant to present and projected future levels of those revenues.” This manual was created to assist county administrators and policymakers in understanding the array of General Fund, Fire Fund, E911 Fund, Stormwater Fund, Solid Waste Fund, as well as Water & Sewer Fund revenue sources available for the various programs and services Dorchester County provides. Because the cost for services is usually more straightforward, revenue forecasting and analysis is instrumental to developing budgets. The Dorchester County Revenue Manual provides reliable revenue projections taking into consideration economic fluctuations and historical trends.

Overview

Dorchester County collects revenue from various sources for the General Fund, Capital Improvement Fund, Capital Projects Fund, Debt Service Fund, Special Revenue Funds and Enterprise Funds.

General fund revenues listed in the manual provide funding for services such as police, emergency services, public works, judicial services and general government operations. General Fund revenues are not used for Stormwater, Solid Waste, Water & Sewer, Fire, etc.

Between 2015 and 2019, on average, Dorchester County has under-budgeted the general fund revenue by \$1,917,987. The NACSB recommends actual revenue be within 5-6% of the budgeted revenue. The goal of revenue forecasting is to smooth the variation between revenue budgeted and actual revenues collected. More accurate revenue forecast allows the County to use the taxpayers' dollars more efficiently and smoothes out the highs and lows associated with governmental finance.

The Dorchester County Revenue Manual includes a categorized listing of all revenues generated by the County and detailed information about the revenue sources within each category. The presentation of each revenue source provides information about the legislative (authorization) history; sources; uses and current rates; how the revenue is collected; any exemptions; and the revenue collectors. The historical evaluation includes five years of financial history (Fiscal Years 2015-2019) and narratives about historical trends.

Dorchester County Fund Account Structure

The account number is divided into four segments: Fund, Department/Division, Basic activity/Sub activity, Element/Object. Emphasis in this book is upon the General Fund account segments. The account segment provides specific information about the account number (which fund, department, division and activity type).
