Proof Roll Request Checklist

- a. Subbase (Proof #1)
 - Verification of material used (attach load ticket)
 - Verification of grade and drainage by Survey - GPS Grading Equipment.
 - Verification of thickness and width by Survey - GPS Grading Equipment.
 - Quality control tests confirmed that the compaction requirement of _____% was met.

- b. Base (Proof #2)
 - Verification of material used (attach load ticket)
 - Verification of grade and drainage by Survey - GPS Grading Equipment.
 - Verification of thickness and width by Survey - GPS Grading Equipment.
 - Underdrains were installed behind 100% of curbs.
 - Quality control tests confirmed that the compaction requirement of _____% was met.

As Engineer of Record or Representative, I have reviewed the survey and QC testing data and have determined that the testing section should meet the Dorchester County Construction Standards for Streets (Section 21.4 of Ordinance 04-13). **A proof roll report will be uploaded to the Land Disturbance Permit in Evolve within 72 hrs. after the requested Proof Roll is conducted.**
